Description

For the Project Manager who wishes to use the CPM methodology to manage her team

1.0 Creating your Project : User Story and its Subtasks

1.1 Enabling CPM Scheduling

After logging in as administrator and on the Main Menu click on the link:

1) Program Setup page

Select CPM Scheduled Project then check the Show CPM Functions tick-box and press Save

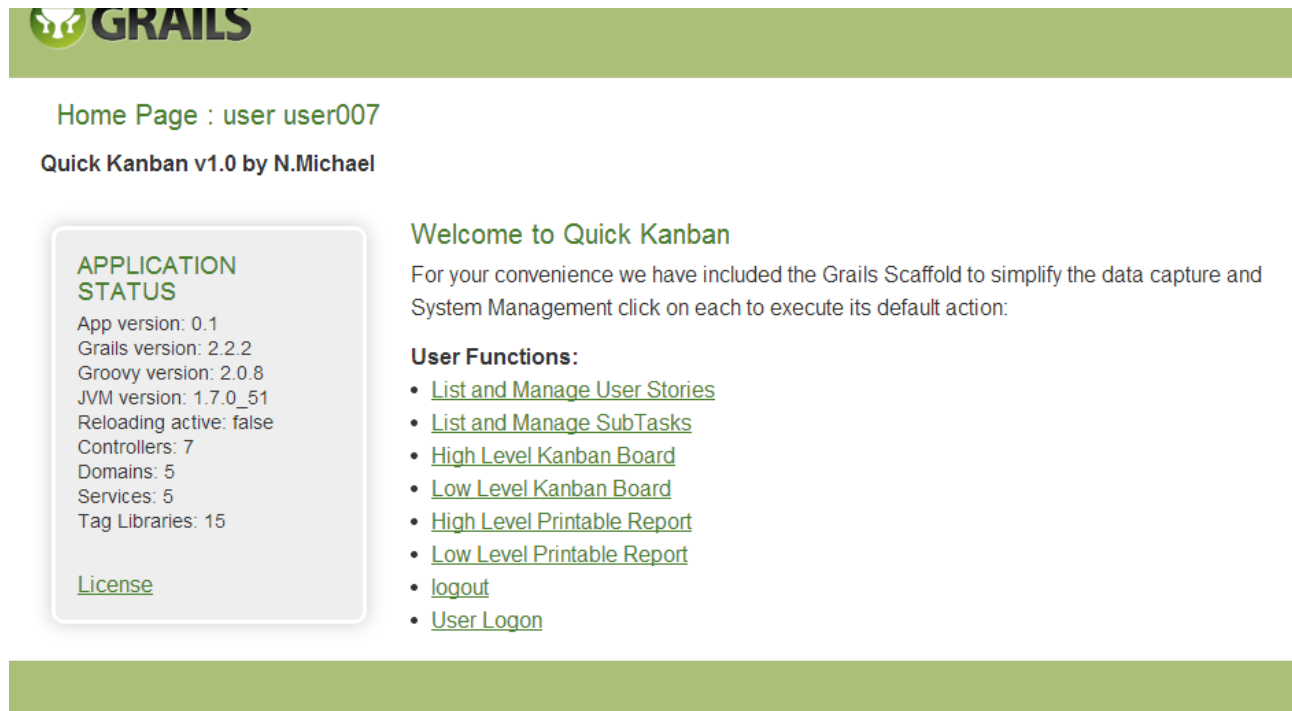

Project Type	CPM Scheduled Project ▾
Date Format	USA MMM/dd/yyyy ▾
Show CPM functions	<input checked="" type="checkbox"/>
Show Scrumfunctions	<input checked="" type="checkbox"/>
	<input type="button" value="Save"/>

1.2 Creating the User Story (Project)

After logging with the default User Name and password this screen will appear
Click on the link “[List and Manage User Stories](#)” (under User Functions)

On the Main Menu click on the link:

1) Add a User Story

APPLICATION STATUS
App version: 0.1
Grails version: 2.2.2
Groovy version: 2.0.8
JVM version: 1.7.0_51
Reloading active: false
Controllers: 7
Domains: 5
Services: 5
Tag Libraries: 15
[License](#)

Welcome to Quick Kanban
For your convenience we have included the Grails Scaffold to simplify the data capture and System Management click on each to execute its default action:

User Functions:

- [List and Manage User Stories](#)
- [List and Manage SubTasks](#)
- [High Level Kanban Board](#)
- [Low Level Kanban Board](#)
- [High Level Printable Report](#)
- [Low Level Printable Report](#)
- [logout](#)
- [User Logon](#)

Click on the button “New UserStory”

Fill in the details of your UserStory like this :

Create UserStory

SubTask

SUBTASK_10_1 | st 10 ▾

Create

[Add and Link CPM Nodes in Network](#)

NODE ID	SUBTASK	DURATION
1	SUBTASK_1_1 : st 1 of 1	2
2	SUBTASK_2_1 : st 2 1	4
3	SUBTASK_3_1 : st 3 1	6
4	SUBTASK_4_1 : st 4 1	8

Repeat this until you have created nodes and linked all your subtasks to them

Then click the link :

Add and Link CPM Nodes in network

2.2 Add and Link CPM Nodes to Network

After creating all your Nodes as in section 2.1 click the link on that page :

Add and Link CPM Nodes in network

Select the Node ID you wish to link and select the first of its immediate next nodes press the Create button to make the link on the Network

Then select the same Node ID again and select the next of its immediate next nodes press the Create button to make the link on the Network

Repeat this until all the Nodes in Network have been linked to all their immediate next nodes
